

# CivicCase for Prosecutors

## Expedite initial case intake, all the way to final sentencing.

CivicCase for Prosecutors is an innovative case management solution that helps prosecutors and their staff manage the intricate details of cases more quickly and effectively with real-time access to data.

Built in close collaboration with prosecutors, CivicCase for Prosecutors has been purposefully crafted to streamline the case-building process. Through role-based views, flexible workflows, and interconnected data management, this platform offers an intuitive user interface for stronger cases and a fairer criminal justice system. With CivicCase for Prosecutors, your team can benefit from:

### Benefits

#### Faster Case Intake

Real-time uploads from law enforcement expedite the intake process. Prosecutors can access uploads instantly.

#### Clear Documentation

Judgment forms capture essential case information—vital for reference and analysis.

#### Consolidated Case Information

Prosecutors can quickly retrieve information about co-defendants and related cases, streamlining case preparation and analysis.

### Key Capabilities
